

JEWISH CULTURAL CENTER KEDEM KISHINEV, MOLDOVA

Working together for the benefit of Moldova Jewish community and all residents Kishinev Jacobs Jewish Campus (KJJC) is the country's largest ethnic welfare and cultural Jewish center established to promote the development of the flourishing Jewish community and to satisfy the cultural and educational needs of all Kishinev's residents. That is a center where any Jewish community member can find a cultural niche, answers to the questions of interest for him/her and a hobby class to his/her liking. KJJC, which opened its doors in 2005, is standing on a historical place – the former location of the Jewish synagogue founded by the local woodcutters' guild.
