

**ONE-STEP WEBPAGES**  
**A Potpourri of Genealogical Search Tools**  
**Stephen P. Morse (steve@stevemorse.org)**

The One-Step website started out as an aid for finding passengers in the Ellis Island database. Shortly afterwards it was expanded to help with searching in the 1930 census. Over the years it has continued to evolve and today includes over 100 web-based tools divided into a dozen separate categories ranging from genealogical searches to astronomical calculations to bidding on ebay. This presentation will describe the range of tools available and give the highlights of each one.

The One-Step website is at <http://stevemorse.org>

**ONE-STEP WEBPAGES**  
**A Hodgepodge of Lesser Known Gems**  
**Stephen P. Morse (steve@stevemorse.org)**

The One-Step website started out as an aid for finding passengers in the Ellis Island database. Shortly afterwards it was expanded to help with searching in the 1930 census. Over the years it has continued to evolve and today includes over 100 web-based tools divided into a dozen separate categories ranging from genealogical searches to astronomical calculations to bidding on ebay.

Another talk (A Potpourri of Genealogical Search Tools) describes the range of tools available and give the highlights of each one. There are too many utilities on the One-Step website to be covered in a single talk, so many of them found their way to the cutting room floor when the Potpourri talk was being edited. However several of those are quite useful. This talk describes those gems that you might not otherwise be aware of. They range from problems with genealogical searches to problems with identity theft to problems with DNA.
